

Meet the Career Services Center

We want our members to be successful, which means earning a paycheck in their careers in Instructional Design. We will be there with you every step of the journey.

Career Services will focus on:

- Offering mock interview coaching and practice to enhance interview skills
- Connecting qualified AIDA members to volunteer opportunities
- Priority access to network and apply for opportunities with our employer partners
- Hosting job search-specific events and workshops
- Facilitating networking between AIDA members, grads, and program contacts
- Sharing timely communications to support your job search
- Providing additional support on an as needed and by request basis.

This entails the opportunity to schedule one-on-one sessions with our career services team members via their available calendar slots. **(It's important to note that while we strive to assist promptly, we cannot guarantee immediate openings.)**

These conversations may include an additional review of targeted job search materials if needed.

But wait....there's more! Starting with the launch of Career Services, AIDA will now offer a **GUARANTEE** to our members!

“We will be there every step of your journey until your first paycheck”

For our AIDA members and grads who are eligible for the Guarantee, if you opt in, you'll gain access to Career Services supports until you get your first ID paycheck-even if that is after you roll off of the AIDA program!

Who is eligible for the guarantee?

Anyone who:

- is an active AIDA member on 6/27/24 or after
- completes Job Readiness Prep Assignments prior to program end date
- opts into the AIDA Guarantee within 90 days after their AIDA program end date

If you have any questions, please feel free to reach out to your Success Advisor!"
